FIGURE 1

FIG. 2 is a cross-sectional view of the device of FIG. 1, showing the device in a cross-sectional view. The device is shown in a cross-sectional view, with the device being a cross-sectional view of the device. The device is shown in a cross-sectional view, with the device being a cross-sectional view of the device.

FIG. 3 is a cross-sectional view of a multi-layered structure. The structure consists of four layers, labeled 10, 12, 14, and 18. Layer 10 is the top layer, followed by layer 12, then layer 14, and layer 18 is the bottom layer. Each layer is filled with diagonal hatching lines. The layers are separated by thin, unlabeled lines. The entire structure is bounded by a top surface 11 and a bottom surface 19. A vertical line 1 is shown on the left side of the structure, and a vertical line 19 is shown on the right side. The number 40 is located to the left of the structure.
